TEAM

The senior team has been investing together for over 20 years. The continuity of the team has provided consistency among deal teams resulting in deep industry knowledge that has stayed within the firm.

INVESTMENT PHILOSOPHY AND APPROACH

The Jordan Company's investment approach is to acquire companies in partnership with management. TJC brings an operationally focused approach to its acquisition process and portfolio company oversight. This value-added approach relies on fostering strong relationships with talented managers – these relationships are critical to successfully executing a hands-on operating strategy and implementing an add-on acquisition strategy. Since 2002, TJC has completed over 225 add-on investments into its portfolio companies.

Raised Over \$11 Billion in Committed Capital Since 2002

INVESTMENT DISCIPLINE AND RISK MANAGEMENT

A strong focus on the mitigation of risk has resulted in an emphasis on the value of diversification. TJC will focus on building a portfolio that is not heavily weighted toward any one sector of the economy. Risk is also mitigated by conservatively managing the use of leverage in structuring each investment.
